INTERNSHIP

MERN Stack Intern | Pumo Technovation | (Jul 2025 – Dec 2025)

- Developed and optimized frontend components using React.js.
- Improved application performance with lazy loading and efficient state management.
- Debugged and resolved UI/UX issues, improving user experience and engagement.
- Collaborated with backend developers to integrate RESTful APIs, ensuring seamless data flow and real-time updates.

PROJECTS

AI Crime Report Generator (React.js, Neon Database, AI Integration)

- Developed an intelligent crime data generation system using React.js frontend and Neon database for real-time analytics and visualization.
- Integrated AI models to generate predictive crime reports and insights.
- Designed interactive dashboards for data visualization and trend analysis.

E-commerce Platform (MERN Stack)

- Built a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication, product management, shopping cart, and secure payment gateway integration.
- Designed a responsive and modern frontend with React.js and optimized backend API performance.

PROFESSIONAL SKILLS

- **Strong problem-solving** and analytical skills.
- Excellent communication and **teamwork** abilities.
- Passion for continuous learning and **staying updated** with modern web technologies.
